NAUTILUS

XPload Premier - Incline Press

The XPload Premier Incline Press dedicates a station to upper-chest development. Independent arms press up and inward on a converging path, while an adjustable back pad sets pre-stretch so each member starts the press in position. Gas-assisted seat height adjustment with a wrap-around handle moves members on and off quickly, and knurled stainless steel grips give the hold of a barbell. At 54 in (138 cm) long, it brings focused incline work to floors where space is at a premium.

PRODUCT DIMENSIONS	
Length	54 in (138 cm)
Width	48 in (122 cm)
Height	75 in (190 cm)
Overall Weight	350 lbs (158 kg)
Shipping weight	507 lbs (230 kg)
