

STAIRMASTER® ORIGINAL AND REVOLUTIONARY

30 years ago, StairMaster created the toughest workout in the gym with our original stepmill, The Gauntlet 8G. We've honored that tradition with the creation of both the 10G and 8Gx. This family of products has revolutionized HIIT workouts and brought the toughest athletes to their knees. Decide which StairMaster StepMill is the best fit for your facility and members.

OPENHUB CONSOLES

The 15" Capacitive Touch OpenHub Console offers a premium user interface design, Landmark Challenge Programming, RunTV and web-based media access for news, entertainment and work-out motivation. With standard features like HDMI streaming, Bluetooth connectivity and TV tuner options, this is a display that has something for every user.

PRODUCT DESIGN FEATURES

From OverDrive training mode to whisper quiet mechanics, StairMaster offers features that will keep your members coming back for more.

FEATURES

STAIRMASTER 8G

STAIRMASTER 8Gx

RESISTANCE RANGE	24-162 SPM	24-190 SPM
RESISTANCE LEVELS	20	25 (single step micro-adjust with 15" touch screen)
DRIVE SYSTEM	Alternator w/ electronic brake	Generator

8Gx BENEFITS

USER

OWNER

OPERATOR/SERVICE TECH

ALL NEW DRIVETRAIN AND ELECTRONICS	Sound & Feel: New drivetrain technology makes for a quieter, smoother experience compared to the 8G. The user can focus on the effort they're putting in instead of the noise of the machine.	Simple Serviceability: Service providers worldwide loved the 10G's service access point so much that we brought it to the 8Gx. Quick accessibility and simplicity in design make it easy to perform any service needs.	Easy Access: Drivetrain and electronics are housed at the base of the machine, easily accessible by removing a single shroud (only 4 screws). Location provides enough room within the unit to perform any service needs.
	Intensity: Users can take their workouts to the next level with an additional 5 resistance levels (25 total). Take it up to 190 SPM to CRUSH calories!	Quieter: Whether it's a single unit or a StairMaster fleet, the all new drivesystem is noticeably quieter.	
NEW HANDRAIL DESIGN, WITH LOWER STEP UP HEIGHT	Function: Integrated controls into the handrail, user can now shift speeds and use the safety stop button without having to take their hands off the rails. Better user experience!	Accessibility: Updated handrails offer assistance for the user to climb onto the machine, paired with a low step up height, this makes the 8Gx easy to access for everybody in your gym.	
	Accessibility: Lower step up height and updated handrails make it easier to climb onto the unit for your workout!		
STREAMLINED AESTHETIC	Ergonomics: Elevated handrail design offers the user more touchpoints for stability and comfort so they can get the most out of their workout.	Elevated Design: 8Gx design was modeled after the 10G, making them the perfect Stepmill pairing for your cardio floor - ready to work for any user.
