

Pro Series, Flat-Incline Adjustable Bench

The Gym Gear Pro Series Flat-Incline Adjustable Bench delivers reliable commercial quality for those heavy dumbbell workouts. The integrated spotting platform improves safety and makes spotting easier for those heavy shoulder presses. There are 10 back rest incline positions from flat to 85 degrees incline all laser cut for precision. The seat pad has 3 incline positions from flat to 30 degrees. The welded support bar at the back of the bench means this adjustable bench can be used in the same way as a fixed flat bench when in the flat position, perfect for heavy lifting. The 30mm thick pads provide exceptional comfort and support. The bench can be lifted at one end on to two wheels for easy transportation.
