XPload Premier - Bench Press

The XPload Premier Bench Press gives members a guided chest press that starts where they need it to. An adjustable back pad sets pre-stretch for an optimal start position, and independent arms travel a converging path so each side presses its own load. Gas-assisted seat height adjustment with a wrap-around handle keeps changeover quick, and knurled stainless steel grips match the feel of the free-weight floor. With a knurled safety pin on each load horn and capacity of 180 lb per arm, it is a chest station built to stay in service.

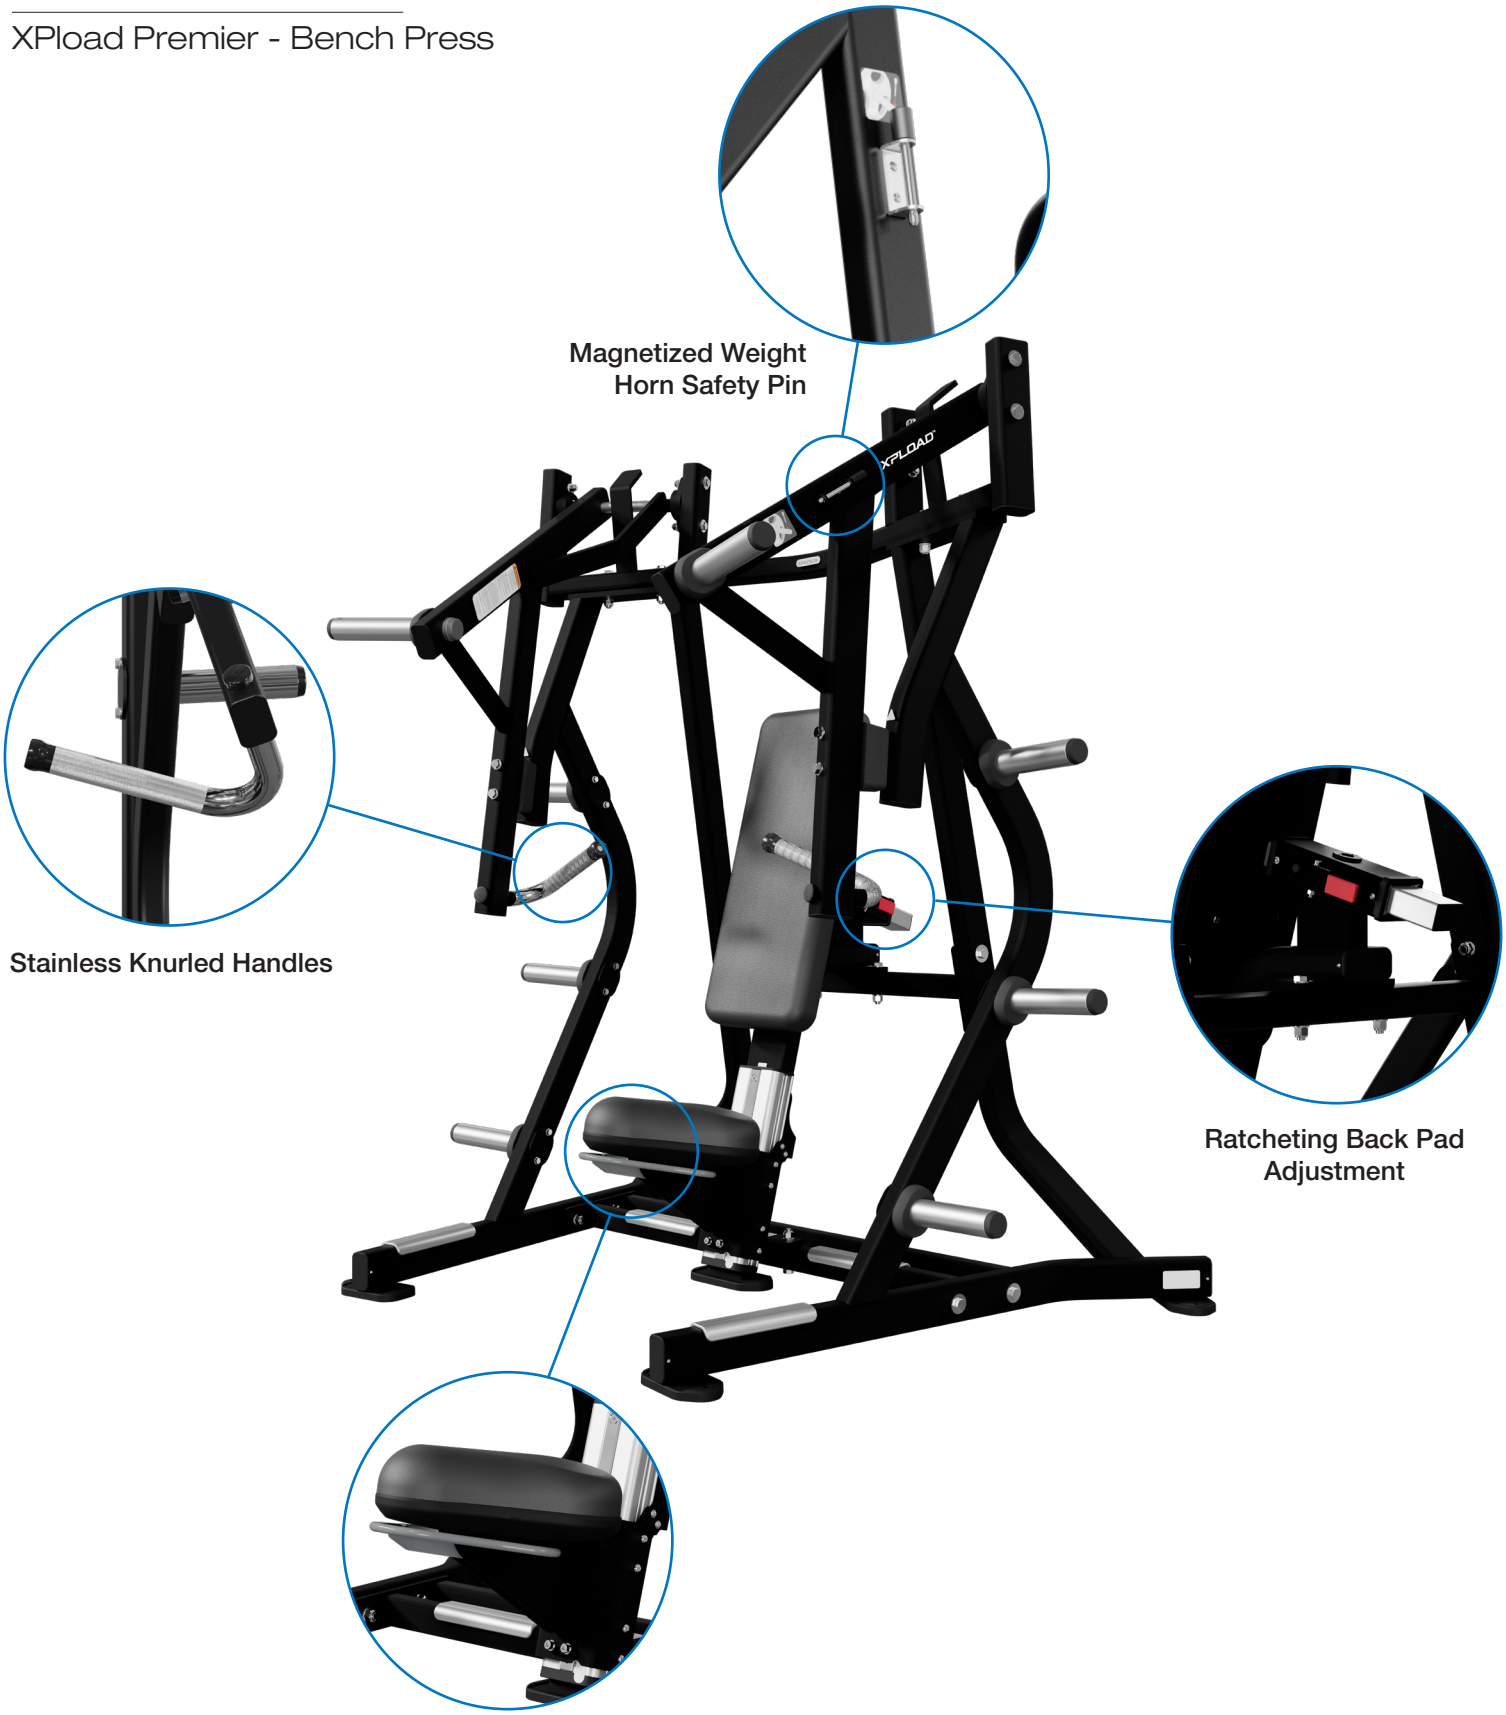

PRODUCT DIMENSIONS	
Length	67 in (171 cm)
Width	47 in (119 cm)
Height	72 in (183 cm)
Overall Weight	336 lbs (152 kg)
Shipping weight	518 lbs (235 kg)
